

At the center of the Kellogg Institute's activities are its faculty fellows—more than 100 faculty members from 21 academic departments, centers, institutes, and schools across the University—who engage in research on the Institute's core themes of democracy and human development, as well as international topics more broadly.

What can I do as a Kellogg Faculty Fellow?

- **Join us at our monthly fellows luncheon.** Good contacts, good conversation, and good food! Meet other Kellogg faculty fellows, visiting fellows, and doctoral student fellows. Luncheons are held at noon on the first Monday of each month during the academic year.
